## TEACHING

### University of Leeds, United Kingdom:

- **Projects in Mathematics.** This is a year long course for students to carry out independent research. I co-supervised 5 students for different projects in the research field of “*Friezes*.”

### Queen’s University, Kingston, Canada:

1. **Vector Calculus** in the Fall semesters of 2018; 2019; 2020.
  - The class size was about 150 students in 2018 and 2019 and the online course in 2020 had about 275 students. I was the only instructor, thus the coordinator, of this course each semester and I was responsible for every aspect of the teaching including preparing and giving lectures, assigning homeworks, preparing exams and coordinating with teaching assistants for grading of the exams.
2. **Rings and Fields** in the Winter semester 2019.
  - This was a coordinated course and I was responsible from preparing and giving lectures for my section which had about 55 students. I was also responsible for preparing weekly quizzes for my section and organizing weekly tutorial sessions with the teaching assistant.
3. **Linear Algebra** for the Winter semester 2020; 2021.

- This was a coordinated course and I had about 120 students in 2020 and 135 students in the online course in 2021. I was the coordinator of the online course in 2021 and was responsible for every aspect of the teaching.

**University of New Brunswick, Fredericton, Canada:**

- From January 2014 to August 2015, I worked as a teaching assistant for introductory calculus classes. I was responsible for preparing exercises and grading. I conducted problem solving sessions for two hours every week.
- In addition, I worked as a tutor at the Math Help Center helping students in their homeworks and questions related to math courses.

**Arel University, Istanbul, Turkey:**

- From September 2012 to December 2013, I was a full time lecturer. I taught introductory calculus classes in English to first and second year engineering students. I had around six sections each semester and each section included around 25 students. I was responsible from every aspect of teaching; preparing and giving lectures, assigning and grading homeworks, preparing and grading exams.
